

The management of Carbofer Tecnologie S.p.A. works with attention to issues related to environmental protection.

It is convinced that the prevention of environmental impacts and an action aimed at meeting the environmental requirements deriving from its context are a commitment and a fundamental component in the management of the company system.

To ensure correct and consistent management and planning of its activities aimed at continuous improvement, it develops and maintains an Environmental Management System in compliance with the UNI EN ISO 14001:2015 standard, of which this Environmental Policy expresses the responsibilities towards the environment of the Management and staff of the two plants of GIANICO (BS) E PIANCAMUNO (BS).

The environmental policy of Carbofer Tecnologie SPA takes the form of the following:

- ✓ Commitment of all the means necessary to ensure compliance with applicable environmental legislation;
- ✓ Continuous monitoring of its environmental impacts aimed at reducing its ecological footprint and preventing risks related to the activities and materials used in the company, through a timely monitoring of the characteristic parameters;
- ✓ Promotion of environmentally-friendly rules of conduct among suppliers, in particular through responsible management of raw materials and awareness of the use of means of transport that fully comply with the directives on pollutant emissions;
- ✓ Continuous research into innovative operational and technical tools aimed at improving the treatment processes of non-hazardous special waste;
- ✓ Continuous improvement of services based on concrete and verifiable data;
- ✓ The definition of operational procedures and the continuous training and information on safety and environmental issues to their staff to promote responsibility and awareness;
- ✓ Promotion of a company policy aimed at the economization of natural resources necessary for production cycles with the reduction of waste production, encouraging recycling where possible;
- ✓ Ensuring that environmental policy is documented implemented and maintained at all levels of the organization and made available to the public.

Carbofer Technologies S.p.A. intends to pursue continuous improvement in compliance with environmental and safety regulations in the workplace. The management defines measurable indicators thus setting targets, providing objectives and committing itself to organizing and finding the necessary resources for obtaining them.
